

Mini lightweight Kettle

Brand: NRS Healthcare
Product Code: M10826
Availability: 20
Weight: 0.00kg

Price: £24.99

Short Description

Light weight enables those with weak grip or reduced hand function to make a hot drink more easily.

Description

Mini lightweight Kettle is a small, lightweight kettle, weighs only 600g (21oz), therefore it weighs much less than a normal full sized kettle making it ideal for users with limited wrist strength, weak grip or reduced hand function.

It holds up to 1 litre of water and has an automatic cut off switch at boiling point.

The neutral white colour means that it will fit in with any colour scheme and the small size means that this kettle is also suitable for use in the lounge, dining room or bedroom for those users with limited mobility.

Specification

- Cordless action: 900Watt
- Product Weight: 600g (21oz)
