Bath Belt

Brand: Relaxa
Product Code: CR
Availability: 20
Weight: 15.90kg
Location: Bristol and surrounding areas

Price: £899.00

Short Description
Bath lifts fit inside the bath and can lift or lower the bather from near the bottom of the bath up to the height of the bath rim.

Description
The bath belt provides independence for those that find the bath difficult to enter or leave.
Comprises of an inconspicuous wall-unit and a discreet bracket at floor level.

With the easy to use hand set, a strong broad belt feeds from the wall-unit. This is easily secured to the floor bracket. The belt is then made taut with the touch of another button to create a secure, very stable seat.

The easy to use hand set then slackens the belt, lowering you gently down to enjoy a totally normal bath, and to come back up is every bit as straight forward.
